

GAMES AND ACTIVITIES

1 Whispered stories

Think of a short story or message and whisper it into the next player's ear. They then whisper what they hear to the next person and so on. The last player says out loud what message they heard.

Did they get it right?

2 Make your favourite Bible story

Use Play-Doh, building blocks and toys to create your favourite story from the Bible. A great idea for younger children!

3 Charades

Act out a Bible story without using any words. See who can guess which story you're thinking of.

4 Create a movie

If you have a phone, or can borrow one from somebody (ask them first!), film lots of different people telling you what God has done for them. You can watch it as it is, or edit it and add music yourself – then maybe you can ask to have it played in church to encourage everybody about how amazing God is!
