

As you go ... to school

- Notice something beautiful or interesting in creation and talk about how we can thank God for all that he has made.
- Tell your kid's about something that will be happening in your day and ask them to pray for you. After school, let them know how their prayers helped you.
- Ask your children how they'd like God to help them today, pray with them and encourage them to pray during the day.
- Pray for your children's teachers out loud. It doesn't need to be long!
- See how many people you can make smile on your way to school. God puts joy in our hearts and we can share it with others.
- Ask your kid's who they could encourage or be extra kind to today. God helps us to notice the things and people he cares about.
- Learn a Bible verse together on the way to school - try to memorise a little more each day!
